Attachments: Regulator RTCs_Draft Final Parcel G WP_022019.DOCX

Hi Judy,
Attached are the regulatory comments on the November 2018 version of the work plan/SAP. The redlined changes in the February 2019 SAP were made to address these comments where applicable.
Thanks!
Kim

Importance: High

Kim,

OK, I thought I was no longer confused with these regulator comments, but now I am. These comments look exactly like comments that I reviewed back in Nov 2018 and eventually signed the SAP on 12/3/18. I was told that the regulators had additional comments, but if that's the case, I don't think I have the correct comments as the beginning paragraph states "The purpose of this document is to address comments on the Draft Parcel G Removal Site Evaluation Sampling and Analysis Plan, dated August 2018, for Former Hunters Point Naval Shipyard, San Francisco, California." EPA, DTSC, and CDPH "...comments received September 24, 2018 are listed below and responses to comments are provided in bold."

Please clarify...

Regards,

Judy

Hi -
The redlined file Judy received in March is the redlined final (even though it has draft final in the title - as we weren't sure at the time whether these redlines would be sent as a draft final version back to the regulators - but now we decided to finalize as-is). The clean final PDF is being generated now and will be available for signature by Friday.

Hope this helps!

Kim,

I think there may be some confusion because NIRIS was down. Judy was sent a copy of the draft final from November, but needs a copy of the red-line Final SAP, and I'm assuming a clean Final SAP for signature.

Judy - if NIRIS is still down, can we send it via AMRDEC?

Thanks!!

V/r,
Paul

Paul,

Because NIRIS is still down, I actually didn't receive a pdf version (so that it could be signed) until 3/13. This of course is the second set of regulator comments. Between PFAS drinking water expedited reviews, managing documents without NIRIS, and staffing issues, it has taken quite a bit of my time.

I do understand the scrutiny on the HPNS and will have the review completed to you before the end of the week. The document that I received of course is in the draft final stage.

Regards,

Judy

Judy,

I hate to ask this knowing LANT is down a reviewer, but is there anything we can do to assist with getting the signature on the Final Parcel G Evaluation Work Plan/SAP document #3649? I can offer up to walk through the revisions from the draft that was reviewed. We're under quite a bit of pressure to send a final document this week.

Thanks!!

Judy,

It looks like it was sent out on March 1. If it expired, I can request it be re-sent.

V/r,
Paul

Judy,

This SAP was sent via AMRDEC due to NIRIS being down. The SAP document number is #3649. The upload is for Final SAP signature. The SAP has been reviewed, and there are some minor changes due to regulatory comments.

I know LANT is down a QAO reviewer, so just let me know if you have any questions that we can assist with.

Thanks!

Hi Paul and Steve,

The attached email is confirmation that the redlined SAP and accompanying regulatory comments/response file have been sent to Judy Solomon for review and signature via AMRDEC since NIRIS is still down.

Thanks!
